Thanks Vivian. Iina Ba does still intend to go out to the site today.

[Ex. 6 Personal Privacy (PP)] didn't say which way she wants her trailer to face – front to the NW or SE?

As I mentioned on the phone, the places where the [Ex. 6 Personal Privacy (PP)] drew the septic and roads will be taken in to consideration, however, we will need to look at current topography, rules for septic installation, and other requirements to determine if their suggested locations for road and septic will work.

Thanks
Ali

Subject: Haystack - Figure for Vandever visit

Good afternoon Vivian,

Per our call earlier, please find attached the figure to show the Ex. 6 Personal Privacy (PP) We would like to know how the Ex. 6 Personal Privacy (PP) would like their home oriented within their parcel. **After they mark the figure showing the location and orientation** tomorrow, could you send me a picture of how they want their homes? They can put the rectangle anywhere within their lease rectangle and we will assume the orientation of the rectangle is the orientation of the mobile home. We will use this information for the utility applications.

I also was able to talk to BNSF and Iina Ba. Iina Ba would like to go to the site on Thursday (new homesite areas) to measure distances from current utilities to the new homesite locations. So sending us a snapshot of the chosen orientation will be important. Can you please notify the Ex. 6 Personal Privacy (PP) and let me know if there will be any issue?

I will let you know as soon as I hear from BNSF regarding the add-ons.

Thanks

Ali
